Donna M.C. Baringer, Comptroller
Comptroller's Office
1200 Market St., Room 212
St. Louis, MO 63103

Dear Comptroller Baringer,

Attached for your review and approval is an AT&T Business Local Calling Pricing Schedule agreement for legacy copper telephone lines currently used by the City.

This agreement is not a commitment to purchase services or spend a fixed amount of funds. Rather, it establishes discounted contract pricing that may be used as needed for qualifying lines while departments continue transitioning away from older copper-based "plain old telephone service" (POTS) lines to newer hosted voice solutions.

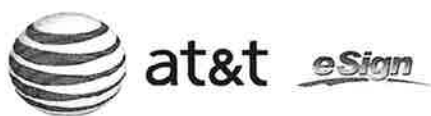

According to AT&T, some existing lines are reaching the end of their current contract terms. Without this pricing schedule in place, lines that fall out of contract status could revert to significantly higher tariff rates, reportedly beginning around \$265 per month per line and potentially increasing further over time. The attached pricing schedule provides access to a contracted rate of approximately \$165 per month per eligible line during a 12-month term while the City continues migration efforts.

The agreement identifies eligible billing telephone numbers and establishes pricing terms only. It does not obligate the City to maintain or use any specific quantity of lines beyond operational needs.

Please let me know if you have any questions or would like any additional information.

Thank you,

Ryan Coleman
Deputy Comptroller for Finance & Development
