ACTIVITY:

## PROPOSED REIMBURSEMENT ANALYSIS

Hud strongly encourages the City of St. Louis to tie grant reimbursements to measurable outputs or outcomes.

CDA will reimburse based on "units of service", with a fixed price. Please identify (1) a unit of service and (2) a fixed price per unit of service.

Please complete the table below for the individual outcomes provided under Section V.-2a

| OUTPUT                                                                                        | B<br>Identify and define the proposed unit of service and any assumptions used. | C<br>List the total number of units | D<br>List the HOME-ARP amount requested for this output | E<br>Units of Service Cost D/Column C | Column |
|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|-------------------------------------|---------------------------------------------------------|---------------------------------------|--------|
| EXAMPLE                                                                                       |                                                                                 |                                     |                                                         |                                       |        |
| <i>Provide monthly housing counseling for 90 days to 50 families at risk of homelessness.</i> | <i>1 Housing Counselor @ \$27/ hour</i>                                         | 1500                                | \$40,500 -                                              | \$27.00                               |        |
| OUTPUT NO. 1                                                                                  |                                                                                 |                                     |                                                         |                                       |        |
|                                                                                               |                                                                                 |                                     | -                                                       | #DIV/0!                               |        |
| OUTPUT NO. 2                                                                                  |                                                                                 |                                     |                                                         |                                       |        |
